Recommended Router Manufacturer and Model

Before you can enjoy seamless internet connectivity, you need to ensure that you have a Wi-Fi router ready prior to home broadband installation, as there is no Wi-Fi router provided during sign-up.

This list below is designed to provide information on basic router models that was tested and guaranteed to work with nex.life connect. In general, based on your budget and feature requirements, newer models from reputable brands will work if the configuration is done correctly.

Manufacturer	Modem Router Model	Firmware
Asus	RT-N12+	3.0.0.4.380.10809
D-Link	DIR-822	3.02
TP-Link	Archer C50	Archer C50(EU)_V4_190125
TP-Link	Archer C20	v4.0 – Archer C20(US)_V4_190103 v5.0 - Archer C20(US)_V5_181213
TP-Link	TL-WR940N	TL-WR940N(US)_V6_171030
TP-Link	TL-WR840N	TL-WR840N(EU)_V6.20_180614

Please ensure that router selected is utilizing the latest firmware from the manufacturer.

Router Setup and Configuration

In order to ensure smooth home broadband installation and to enjoy internet connectivity immediately after a successful installation, we recommend having your router configured and plugged-in to a power socket prior to the home broadband installation.

Check out the generic step-by-step *Quick Setup Guide* on how to set up the Wi-Fi router for nex.life.
